GlasGrid 8502 Detail Repair System is manufactured at a Saint-Gobain ADFORS facility that has achieved ISO 9001:2008 certification, registration #0045662 and meets the requirements of EN 15381. GlasGrid is a high strength, open fiberglass grid custom knitted in a stable construction and coated with a patent-pending elastomeric polymer and self-adhesive glue. Every component of the matrix shall be stabilized against ultraviolet degradation and inert to chemicals normally found in a natural soil environment. GlasGrid shall conform to the property values listed below, which have been derived from quality conformance testing performed by a GAI-LAP accredited laboratory.
