Increased durability and protection

SunShield polyester solar screen is an innovative specialty fabric that is designed to block up to 80-90% of the sun's harmful rays before they pass through your window. Great for any application, SunShield can be used in exterior solar screens, and sun shading applications. SunShield can also be used in window and door screens, patios, gazebos, roller shades, and patio shades because of its versatility and composition. SunShield can ultimately save on your cooling bills and prevent furniture and carpet from fading.

Features and benefits of SunShield:

- Blocks up to 80-90% of the sun's harmful rays - (80% for SS80, 90% for SS90)
- Designed to help save on cooling costs
- Mold & mildew resistant
- Flame resistant
- Provides excellent insect protection
- Resists tear & punctures common from household pets
- Ortho-phthalate free
- 10-year limited warranty

SunShield screen is available in 100' contractor rolls in widths of 36", 48", 60", 72", and 96".
