

Self-Adhesive Joint Tape for Plasterboard

FibaTape®

ADFORS FibaTape® offers a full line of products for wall finishing

The ADFORS FibaTape® family of products includes a complete range of innovative drywall joint tapes and cracks repair products, each offering strength, flexibility, easy installation and considerable cost savings.

- stronger joint than paper tape
- stronger joint than standard glass fibre tape
- high quality standard

HOW TO APPLY ADFORS FibaTape®?

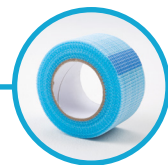

1. Apply the self-adhesive side directly onto joints.
2. Cover the fabric completely with a thin coat of plaster (5-10 cm wide) and allow it to dry.
3. To finish, cover with a further coat of plaster (15-20 cm wide).

CLASSIC

Universal drywall tape

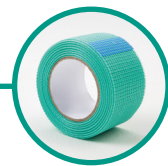

Self-adhesive — For an easy application.

High mechanical strength — Fibre glass mesh for stronger joints.

Smooth finish — Open mesh to eliminate blisters and air bubbles.

MOLD-X

Anti-mold drywall tape

Anti-mold — Provides mold protection for a safer environment. Perfect for wet rooms.

Greater protection — Provides more protection than other drywall tapes in moist environments. Perfect "10" rating on ASTM D3273 mold test.

Perfect compatibility — Ideal for use with mold-resistant drywall.

XTREME

Extreme environment drywall tape

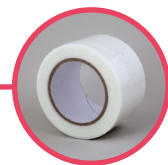

Extreme tack — More glue for a better grip to help keep tape secure in humid or cold environments.

Extreme humidity — Adheres great in humid environments.

Extreme temperatures — Performs in temperatures 5-35 °C.

PERFECT FINISH

Ultra-thin drywall tape

Thinner profile — Over 30 % thinner than standard paper drywall tape and regular glass fibre mesh tape - without compromising strength.

Increased strength — 50 % more intersection points and an increased number of fabric yarns for unparalleled durability.

Ideal for ceilings — A thinner profile requires less compound for easier feathering and sanding.

PACKAGING

ADFORS FibaTape®	roll	rolls/box	rolls (boxes)/pallet
